|------------|---------------|-------------------|--------------|--------------------|-----------------|--------------------------|---------------|---|
| 5710547204 | Patinya Yong  | Join Pa           | 103.5        | 7                  | 10              | 10                       | 1             | Very nice. Consider using RESTful web service for comm. with server.  |
| 5710546259 | Taweerat Ch   | Join Pa           |              |                    |                 |                          |               |   |
| 5710546372 | Pipatpol Tan  | Snake Ladder      | 103.5        | 7                  | 10              | 10                       | 1             | In BoardUI, hacky code for adjustPosX and adjustPosY.   |
| 5710547182 | Thanawit Gei  | Snake Ladder      |              |                    |                 |                          |               |   |
| 5710546666 | Apichaya Bur  | CrossWar          | 98           | 6                  | 10              | 10                       |               | Uses OCSF. Very nice except does not validate player's words.   |
| 5710546224 | Natcha Pong   | CrossWar          |              |                    |                 |                          |               |   |
| 5710546241 | Tuangrat Mui  | CrossWar          |              |                    |                 |                          |               |   |
| 5710546631 | Sorawit Saku  | Manga Reader      | 97.5         | 5                  | 10              | 10                       |               | Doesn't use Java coding convention. Uses network, progress monitor, PDF viewer,   |
| 5710546151 | Kasidit Phon  | Manga Reader      |              |                    |                 |                          |               |   |
| 5710546593 | Voraton Lertr | Saori             | 97.5         | 5                  | 10              | 10                       |               |   |
| 5710546607 | Wanchanapo    | Saori             |              |                    |                 |                          |               |   |
| 5710546194 | Chinthiti Wis | File Hub          | 94.5         | 5                  | 9               | 10                       |               | Uses network protocols, defines message formats and comm. protocol, but reinventing the wheel.  |
| 5710546267 | Thongrapee I  | File Hub          |              |                    |                 |                          |               |   |
| 5710546542 | Jidapar Jetta | Othello           | 91           | 5                  | 10              | 9                        |               | Couldn't run it on my computer.   |
| 5710546640 | Salilthip Phu | Othello           |              |                    |                 |                          |               |   |
| 5710546160 | Kitipoom Kor  | Office Helper     | 91.5         | 6                  | 10              | 9                        |               | Collection of simple apps. Music player only plays WAV files.   |
| 5710546437 | Arut Thanom   | Daily Life Helper | 84.5         | 5                  | 10              | 8                        |               | Another collection of simple apps. Calendar throws exception. "Image Sender" is just OCSF simplechat app. Calculator has bugs. Reminder throws exception. |

| ID         | Name          | Project            | PA6 Score | Wiki Page 5.00% | Scope 30.00% | Implementation 65.00% | Demo 5.00% | Remarks   |
|------------|---------------|--------------------|-----------|-----------------|--------------|-----------------------|------------|---|
| 5710546283 | Narut Poovor  | Daily Life Helper  | 97.5      | 5               | 10           | 10                    |            | Nice design, uses JavaFX, but doesn't play MP3 on my system.  |
| 5710546381 | Pakpon Jeta   | AudioPlayer        |           |                 |              |                       |            |   |
| 5710546356 | Phasin Sarur  | AudioPlayer        |           |                 |              |                       |            |   |
| 5710545015 | Chawakorn A   | All Unit Converter | 94.5      | 5               | 9            | 10                    |            | Unit converter with prefixing for scale, many more units. Technically, not very much different from PA3.  |
| 5710546348 | Patchara Pat  | Smart Saving       | 91        | 5               | 10           | 9                     |            | "library-source" should be "lib" so IDE can find JARs. Nice use of JFreeChart. Expense/Income UI is poor - should be more flexible, use JTable for display. |
| 5710546321 | Pongsakorn I  | DekKaset           | 89.5      | 5               | 10           | 8                     | 1          | Required JARs should be in "lib" directory. Recycling lots of simple apps from OOP. Would be better if focus on new content (Homework, Grading).            |
| 5710546313 | Parisa Supita | DekKaset           |           |                 |              |                       |            |   |
| 5710546551 | Chinatip Vich | DekKaset           |           |                 |              |                       |            |   |
| 5710546577 | Benjapol Wo   | Talker             | 97.5      | 5               | 10           | 10                    |            |   |
| 5710546275 | Norawit Urail | Talker             |           |                 |              |                       |            |   |
| 5710547247 | Sanrasern C   | Talker             |           |                 |              |                       |            |   |
| 5710546364 | Pitchaya Nan  | Stock&Store        | 62        | 5               | 9            | 5                     |            | Only Store class has any Javadoc. After customer login, the UI disappears.<br>Hard-code (as String) the IP address and port of server into code!            |
| 5710547212 | Woramate Ju   | Stock&Store        |           |                 |              |                       |            |   |

| ID         | Name         | Project            | PA6<br>Score | Wiki Page<br>5.00% | Scope<br>30.00% | Implementation<br>65.00% | Demo<br>5.00% | Remarks   |
|------------|--------------|--------------------|--------------|--------------------|-----------------|--------------------------|---------------|---|
| 5710546232 | Nattapat Suk | Credit Transfer    | 84.5         | 5                  | 10              | 8                        |               | Bad coding of JDBC parts. Almost no Javadoc. Lots of redundant coding for loading jdbc driver, create connection, etc. Only do it once. And don't use "root" as MySQL user! |
| 5710545023 | Kundjanasith | Credit Transfer    |              |                    |                 |                          |               | Main throws exception on start due to error in Setting constructor.   |
| 5710546291 | Prin Angkuna | Online Card Game   | 78.5         | 5                  | 8               | 8                        |               | Similar to OCSF chat app. Server IP address and port are hard-coded into client main, which is cryptically named MysteriousCard.java  |
| 5710546402 | Raksit Manta | Podcatcher         | 94.9         | 5                  | 10              | 9.6                      |               | Uses ROME and MediaPlayer, good functionality. Weakness is user cannot add his own channels via UI.   |
| 5710546429 | Supanat Pok  | Podcatcher         |              |                    |                 |                          |               | Better to use embedded database like H2, HSQLDB, or Sqlite.   |
| 5710546305 | Parinvut Roc | Physics Calc Timer | 63.5         | 0                  | 6               | 7                        |               | No wiki page (README.md). The JComboBoxes are all empty. Throws exception when Run pressed for 2nd time. Project is too simple - elaboration of Stopwatch.                  |
| 5710546208 | Natanon Poo  | 24 Game            | 85.25        | 0                  | 10              | 8.5                      |               | No Wiki page. UI has no way to correct a mistake. Project config uses absolute path for ocsf.jar. Should use JAR inside project.  |
| 5710546216 | Napong Dun   | 24 Game            |              |                    |                 |                          |               | Throws exception if enter name when server not running. Scores from player 1 not updated on player 2 UI.  |
| 5710546186 | Kaninpat Tan | No Project         | 0            |                    |                 |                          |               | Did not sign up for project.  |
